Dear Family & Friends -

Another month has gone by and it's true, the older you get the faster time goes. Now that we've had *some* sunny days and the gardens are started, it's time to enjoy some time off, sitting on the porch and chatting about the good ole days. This month in "Reminiscing" we feature the Point O' Pines Resort and Supper Club.

We also want to share a very special presentation made by the Barnes Auxiliary Post 8329 to Eleanor DeRosier for her **70th** year being a member of the Barnes Auxiliary. **Congratulation Eleanor!**

4th of JULY PARADE & FLAG CEREMONY

Parade Starts 12:00 noon

Route: Barnes Town Hall to VFW Post

DRY ZONE: Town Hall to Barnes Rd & Lake Rd and County Hwy N (by the Museum)

NO WATER BALLOONS

2017 Theme is "WALK THE PLANK."

Everyone is welcome to participate.

For info, call Melissa S. 218-590-0456

We need a few people to help with preparations (sign in, parking organizers, judges, etc.) Everyone interested in participating in the parade with a float or other display, everyone meets at the town park parking lot, preferably before 11:30. You can enter at the southwest corner to get signed in. You will be directed where to park.

Any one who might be parked in that lot the morning of the 4th, please have your vehicle removed by 10:30. The parade floats have a hard time getting into the area and having the extra cars parked there makes it difficult to maneuver.

Please be courteous of other people and pets during the parade and other town events. Please keep your pets on a leash (and others if necessary 😊) Let's have a safe and happy holiday.

Thank you !

The VFW Auxiliary of Barnes Post 8329 recently honored Eleanor DeRosier for her **70** years of service to their organization.

Eleanor was a charter member of the auxiliary, active and involved, and is now 96 years old and residing at the Shell Lake Nursing facility.

Presenting her with her **70** year pin are members Trice Lancour, Tam Larson, Sam Frelichowski, and Lynn Skandel.

Submitted by: Lynn Skandel

Eleanor has been a fixture in our little community and who we've known most of our lives. Throughout the years, she has been involved in many local activities, town programs and events.

I remember Christmas programs, Barnes Beauty pageants and of course, 4th of July parades that she would add her touch of style and class to.

5th Annual Venetian Boat Parade! Monday July 3rd, 2017 7:00 PM Upper Eau Claire

Come join us for Upper Eau Claire Lake's 5th annual 4th of July Venetian Night!

Decorate your pontoon boat (or whatever boat you have) with lights! A car or boat battery and inverter work great for powering lights. 12 volt LED lights are great too- they are brighter and last longer on a single battery charge. If you don't have lights you can decorate with whatever you want but lights are the easiest decoration to spot from the shore.

We'll meet in the swimming hole next to the island around 7:00PM on Monday July 3rd. We'll have a meet and greet until sunset when we'll take our boats for a Venetian Light Parade around the lake.

If you have any questions email Jack Beshoar at jbeshoar@hotmail.com.

Barnes Highway Department June Report: Eric Altman - Foreman

- Reminder: New Town of Barnes sign in front of the Town Hall. Looks Great Folks!
- Began the Tomahawk Ski Trail expansion May 15th. This included the site preparations for the multi-purpose building that will be built in Tomahawk Park. The expansion of the exiting 6.2 miles of trails to 16 ft skiing, walking, biking surface. The clearing and grubbing is 90% complete with profile grading and slope establishment next in line.
- Cleaned up the stump and brush piles in-between Moore Road and the ski trail.
- The Town walking trail has also been cleared, grubbed and rough graded. The trail starts between the softball field and basketball court and goes to Ellison Lake Road. The Dept took the brush and unsuitable soil and partially filled in the sand burrow hole to create a safe slope along the trail.
- Patching: Lake Road from STH 27 to County N; Call O Wild Road
- Intersection Upgrades: Reshaped the intersections of Cranberry Lake Road and Denver Road; Mulligan Creek Road and Pease Road.
- Roadside Mowing has begun. Robinson Lake Rd., Lake Road and part of Pease Rd
- Transfer Site widened and the recycle dumpsters reorganized to add additional travel lanes to allow easier traffic flow
- Buildings around the Town park are being updated and painted; playground equipment will be stained
- Gravel and Dirt surface roads are being graded to keep smooth for the traveling public.

Look for other Department updates in future issues and as the information becomes available.

ADDITIONAL "REMINISCING" TREAT - BARNES CENTENNIAL 2005 submitted by: Virgil and Earl Orner

Around the turn of the twentieth century one of our relatives, Cephias Johnson, owned property in Barnes known then as "The Big Farm." It is located in the northeast quadrant of the Barnes and Kelley Lake Roads.

The Big Farm later became known as the Kaufman Farm after Cephias Johnson traded it for property in Oregon, owned by Kaufman. Cephias moved to the Beaverton, OR area because of health problems. Many relatives followed him there.

Cephias Johnson was a builder of railroads and other big construction projects in those days, and when it came time to winter his livestock and equipment, he would bring them to the Big Farm where had a log cabin and a barn for the hay that had been put up from the fields during the summer. He particularly enjoyed hunting in the area and we have a picture of a deer hanging near his barn.

Cephias married Olga Ulvin, a woman from the Barnes area. The Ulvin School, named after her family, was located near the present intersection of the Barnes Road and County Highway A.

Each spring the would go to wherever the construction site was for another season of building the roadbed and laying track or whatever the work was for the next season.

He built many miles of railroad roadbed in the Dakotas including the Soo Line from Valley City to Portage, ND and a line westward through Mobridge, SD, and also a line near Rapid City, SD. They used horses to pull the dump wagons and scrapers and an excavator that had six horses pulling, and six horses pushing with conveyors on each side to fill the dump wagons. He also had a steam operated shovel. He built a dam near Hatfield, WI that is still in use, a dam near Helena, MT and other construction projects throughout the country.

Our Grandparents and Uncles were involved with these operations. Grandpa K.D. Knutsen was Cephias' cousin and was the Harness man and Shoemaker. Uncle Frank was the Dynamiter and Dump Master and Uncle Amil was a Foreman. Grandma Hanna Knutsen along with Cephias' wife, Olga, and Olga's sister ran the cook house which was erected near the work sites.

Our Mother, Lilly Orner, remembered attending school on fall, north of Jamestown, ND; with children from a farm near their work camp. She also told of staying overnight in a hotel in Wakapala, west of Mobridge, SD; with her mother and sisters before going to their construction camp. She asked us to look for Cephias' farm, south of Iron River, for several years until Glen Hall, Sr. told us we had been driving by it on the Barnes Rd, when going to our Potawatomi cabin. He knew Cephias and Olga and recognized the picture we showed him.

ANNUAL MEETING & SPECIAL PROGRAM ON GORDON MACQUARRIE

Barnes'-own Gordon MacQuarrie, typing in his Middle Eau Claire Lake cabin in the 1930s and 1940s, was our country's first fulltime outdoor sports journalist. Here in Barnes, MacQuarrie wrote most of the stories of the mythical Old Duck Hunters Association, Inc. Although MacQuarrie's hunting & fishing stories were written more than 70 years ago, they continue to speak eloquently of the joys and sorrows of the average duck hunter. His stories still live in the hearts of many fans who worship his every word.

PROPER AND DIGNIFIED DISPOSAL OF THE AMERICAN FLAG

Contact your local VFW, American Legion Hall or Boy Scout and Girl Scout Troops to inquire about the proper disposal of the Flag. Some local organizations are: *The Barnes VFW Post 8329, The Cable American Legion Post 487, the Cable Boy Scouts of America.* Contact information:

- ◇ Boy Scouts of America - Dave Popelka 715-580-0251

With Memorial Day behind us on the Calendar, but NEVER behind in our hearts, I wanted to share some pictures from the Military Services held in Drummond & Cable. Thank you! Your service and sacrifice will never be forgotten.

Cable American Legion Post 487 in Drummond and Cable ceremonies.

Also, I thought it appropriate to share the meanings of the 13 folds of the American Flag. I feel it Incumbent upon us ALL, to remember what the folding of the Flag stands for, where it comes from, and what it means.

- * The **first fold** is a symbol of life.
- * The **second fold** is for our belief in eternal life.
- * The **third fold** is made in honor and remembrance of the veteran departing rank, who gave a portion of his or her life for the defense of our country to attain peace throughout the world.
- * The **fourth fold** stands for our weaker nature; as American citizens trusting in God, it's to Him we turn to in times of peace as well as war for his divine guidance.
- * The **fifth fold** is a tribute to America. In the words of Stephen Decatur, "Our country, in dealing with other countries, may she always be right, but it is still our country, right or wrong."
- * The **sixth fold** is where our heart lies. It's with our flag that we pledge allegiance to the flag and the republic it stands for.
- * The **seventh fold** is a tribute to our armed forces. For it is the armed forces that protect our country and flag against enemies, whether they be domestic or foreign.
- * The **eighth fold** is a tribute to the one who entered into the valley of the shadow of death, that we might see the light of day, and to honor our mother, for whom it flies on Mother's Day.
- * The **ninth fold** is a tribute to womanhood, for it is through their faith, love, loyalty and devotion that the character of the men and women who have made this country great have been molded.
- * The **tenth fold** is a tribute to father, for He has given his sons and daughters for the defense of our country since he or she was first born.
- * The **eleventh fold**, in the eyes of Hebrew citizens, represents the lower portion of the seal of King David and King Solomon and glorifies, in their eyes, the God of Abraham, Isaac and Jacob.
- * The **twelfth fold**, in the eyes of a Christian citizen, represents an emblem of eternity and glorifies, in their eyes, God the Father, the Son and Holy Ghost.
- * When the flag is completely folded, which some consider the **13th fold**; the stars are uppermost, reminding us of our national motto, "In God We Trust."

Let us NEVER forget. We must teach our children to understand WHY they are Free, and WHY IT MATTERS !!

Obituaries - REMEMBERING LOVED ONES LOST

Anthony “Tony” H. Jalowitz

November 12, 1964 - June 6, 2017

Anthony Howard Jalowitz was born November 12, 1964 in Hayward, WI the son of Joseph and Betty (Stine) Jalowitz. He was raised in Hayward and with guidance from his family he began a great appreciation for the outdoors as he and the family would camp, fish and enjoy all northern Wisconsin had to offer.

Tony graduated from Hayward High School in 1983. Immediately after graduation Tony started work with Trusswork, Inc. in Hayward where he worked for over thirty years and reached a supervisory position.

In 1984, Tony was joined in marriage to Theresa Melton in Hayward. Tony enjoyed carpentry work his entire life but was able to become a full time carpenter when he took a position with Droessler Construction. Building homes was a passion for him and he enjoyed his work. Tony liked to help others and spend time teaching others about fishing, camping, making maple syrup, carpentry work and hunting. He especially enjoyed taking his granddaughters fishing. He loved his daughters, granddaughters, the Packers, The Vet Center, and spending time with family and friends.

Tony is survived by his two daughters, Jessica (Michael) Woller of Hayward, WI, Amanda (Jason Kronberger) of Stevens Point, WI; two grandchildren, Paige and Madison; parents, Joe and Betty Jalowitz; three brothers, Joe (Jane) Jr., Steven, Andy (Debra) all of Hayward; four sisters, Deborah LaSavage, Cindy (Carey) Gidley, Patty “Pitts” Jalowitz, Maria Jalowitz, all of Hayward; many nieces and nephews; and one grandchild on the way.

A Memorial Service was held on Saturday, June 10 at St. Joseph Catholic Church in Hayward.

Craig Christensen, 52, of Cable passed away unexpectedly on June 2, 2017, at the Iowa Methodist Medical Center in Des Moines, Iowa. Craig will be remembered most for being the caring and loving father to his daughter Bailey.

He is survived by his daughter Bailey, mother Kathryn (Kay) Paulsen Christensen, brother Curtis (Marnie) Christensen and significant companion Molly Rice. Craig was preceded in death by his father Erling (Chris) Christensen.

There was an informal gathering on Saturday, June 24, at the American Legion in Cable, WI.

Our sincerest apologies for anyone we may have missed. Our thoughts and prayers are with you and your families in this time of sorrow. If you have any information you would like us to share, please send to:

BNN: We have a correction to an article in the June issue.

(submitted by Larry Bergman)

As to the eagles in Bergman's yard, Larry wanted to note, ***“they were not fighting, but engaged in marital bliss, and must have gotten out of control. Animal lust, I suppose!”***

Two Interlocked Bald Eagles Crash to the Ground

In April of last year, Larry and Patti Bergman were surprised to find two adult bald eagles five feet from their kitchen window at their Barnes home on James Road next to Upper Eau Claire Lake. The eagles were locked in a grip with their talons, lying on the ground, and unable to separate and fly away. According to Larry: “They must have locked up while flying over and fighting, and dropped to the ground, not being able to fly. They squawked and picked at each other for almost an hour, rolled around a bit, heads at opposite ends. A few downy feathers flew, but they were pretty tired.”

Photo by Greg Bergman

The Bergmans called the game warden but before he arrived, the eagles unhooked and flew off in different directions. Larry said, “Apparently they were none the worse for wear!”

MacQuarrie Day at the Barnes Museum

An Afternoon With MacQuarrie Biographer Keith Crowley

MacQuarrie & Biographer Crowley

When: Saturday, noon-3PM, July 22, 2017

Where: Barnes Area Historical Museum, corner of Hwy N and Lake Road, Barnes, Wisconsin 54873

What:

- MacQuarrie biographer, journalist & photographer Keith Crowley will show the MacQuarrie exhibit, including MacQuarrie's typewriter, boat, decoys, a rare film clip of MacQuarrie, and additional MacQuarrie items rarely seen by the public.
- Ask Eau Claire Lake cabin owner Keith Crowley questions about MacQuarrie.
- Have your MacQuarrie biography book signed by Crowley. Books will be available for purchase.

Barnes'-own Gordon MacQuarrie, typing in his Middle Eau Claire Lake cabin, served as outdoor editor for the Milwaukee Journal beginning in 1936 and was our country's first fulltime outdoor sports journalist. Here in Barnes, MacQuarrie wrote most of the stories of the mythical Old Duck Hunters Association, Inc. Although MacQuarrie's stories were written more than 70 years ago, they continue to speak eloquently of the joys and sorrows of the average duck hunter. The Forgotten Verses of “The Star-Spangled Banner”

Do you know all the words to “The Star-Spangled Banner”? Many people have difficulty memorizing the lyrics of the first verse of this song, which is commonly performed at sports events and other public gatherings. But did you know that there are three additional verses that we almost never hear?

In 1814, the poet and lyricist Francis Scott Key penned the lyrics to “The Star-Spangled Banner,” originally known as “Defense of Fort M’Henry.” During the War of 1812, Key witnessed the attacks on Baltimore and wrote the words based on his experiences this night. These lyrics were printed in local newspapers and set to the tune of an existing song called “Anacreon in Heaven,” and then officially arranged by John Philip Sousa. Key’s famous lyrics entered the world as a *broadside ballad*, or a song written on a topical subject, and printed for wide distribution.

More than a century later, in 1916, President Woodrow Wilson signed an executive order designating “The Star-Spangled Banner” as the national anthem, and in 1931, the US Congress confirmed the decision. The tune has kicked off ceremonies of national importance and athletic events ever since.

While the first verse of “The Star-Spangled Banner” is widely known by the American public, the last three verses are generally omitted in performances. Here are all the four verses, as they were written 200 years ago by Key:

THE STAR SPANGLED BANNER Written by: Francis Scott Key

*O say can you see, by the dawn’s early light,
What so proudly we hail’d at the twilight’s last gleaming,
Whose broad stripes and bright stars through the perilous fight*

*O’er the ramparts we watch’d were so gallantly streaming
And the rocket’s red glare, the bombs bursting in air,
Gave proof through the night that our flag was still there,
O say does that star-spangled banner yet wave
O’er the land of the free and the home of the brave*

*On the shore dimly seen through the mists of the deep
Where the foe’s haughty host in dread silence reposes,
What is that which the breeze, o’er the towering steep,
As it fitfully blows, half conceals, half discloses?
Now it catches the gleam of the morning’s first beam,
In full glory reflected now shines in the stream,
'Tis the star-spangled banner—O long may it wave
O’er the land of the free and the home of the brave!*

*And where is that band who so vauntingly swore,
That the havoc of war and the battle’s confusion
A home and a Country should leave us no more?
Their blood has wash’d out their foul footsteps’ pollution.
No refuge could save the hireling and slave
From the terror of flight or the gloom of the grave,
And the star-spangled banner in triumph doth wave
O’er the land of the free and the home of the brave.*

*O thus be it ever when freemen shall stand
Between their lov’d home and the war’s desolation!
Blest with vict’ry and peace may the heav’n rescued
Land Praise the power that hath made and preserv’d
us a nation! Then conquer we must, when our cause it
is just, and this be our motto – “In God is our trust,”
And the star-spangled banner in triumph shall wave
O’er the land of the free and the home of the brave.*

Not only our national anthem, but the **Star-Spangled Banner** was the flag that flew during the War of 1812 during the Battle of Baltimore at Fort McHenry, inspiring Francis Scott Key to write the words that would become the famous song.

Born on August 1, 1779, in Frederick County, Maryland, Francis Scott Key became a lawyer who witnessed the British attack on **Fort McHenry** during the War of 1812.

The fort withstood the day-long assault, inspiring Key to write a poem that would become the future U.S. national anthem, "The Star-Spangled Banner.

The original Star-Spangled Banner, the flag that inspired Francis Scott Key to write the song that would become our national anthem, is among the most treasured artifacts in the collections of the Smithsonian's **National Museum of American History** in **Washington, D.C.**

"The colors of the pales (the vertical stripes) are those used in the **flag** of the United States of **America**; White signifies purity and innocence, Red, hardiness & valor, and Blue, the color of the Chief (the broad band above the stripes) signifies vigilance, perseverance & justice."

The Flag of the United States of America.

The national flag consisting of white stars (50 since July 4, 1960) on a blue canton with a field of **13** alternating stripes, **7 red** and 6 white. The 50 stars stand for the 50 states of the union, and the **13 stripes** stand for the original **13** states.

There are several important reasons to bring pharmaceuticals to collection events. Up until now, most people have either thrown medications in the trash, flushed them down the toilet or burned them with their trash in a burn barrel. Utilizing these options present several environmental problems.

Flushing of medications into the wastewater system means that ultimately these drugs will find their way into our lakes, rivers and streams. Many medications, when introduced into our natural waters, can lead to reproductive and developmental problems in fish and other aquatic wildlife. Studies have been done confirming these results.

Burning medications is illegal according to state law, because of the chemical pollutants that can be emitted from burning.

Trashing medications can also ultimately result in water contamination because the chemicals break down when water (rain) percolates through the landfill layers. This liquid, called leachate, is typically pumped out of landfills at some point and treated at wastewater treatment plants. The chemicals often make it through these wastewater plants and then find their way back into our natural waters.

This Month in History

July 2, 1776 - The Continental Congress in Philadelphia adopted the following resolution, originally introduced on June 7, by Richard Henry Lee of Virginia: "Resolved, That these United Colonies are, and of right ought to be, free and independent States, that they are absolved from all allegiance to the British Crown, and that all political connection between them and the State of Great Britain is, and ought to be, totally dissolved. That it is expedient forthwith to take the most effectual measures for forming foreign Alliances. That a plan of confederation be prepared and transmitted to the respective Colonies for their consideration and approbation."

July 6, 1885 - Louis Pasteur gave the first successful anti-rabies inoculation to a boy who had been bitten by an infected dog.

July 8, 1776 - The first public reading of the Declaration of Independence occurred as Colonel John Nixon read it to an assembled crowd in Philadelphia

July 20, 1715 - The Riot Act took effect in Britain. If a dozen or more persons were disturbing the peace, an authority was required to command silence and read the following, "Our sovereign Lord the King chargeth and commandeth all persons, being assembled, immediately to disperse themselves, and peaceably to depart to their habitations, or to their lawful business, upon the pains contained in the act made in the first year of King George, for preventing tumults and riotous assemblies. God save the king." Any persons who failed to obey within one hour were to be arrested.

July Birthday - Civil War Admiral David Farragut (1801-1870) was born near Knoxville, Tennessee. He is best remembered for his yelling "Damn the torpedoes, full speed ahead!" during an attack on his fleet by the Confederates. (I never knew there were torpedoes in the 1800's so asked my brother Gary. As it turns out, he and his daughter Kristi visited the Veterans Museum in Madison in June where they saw the exhibit showing that there was a battle in the Gulf of Mexico during the Civil War. Both North and South had a fleet of ships and used torpedoes.)

REMINISCING

the POINT O' PINES Resort and Supper Club

As with most businesses in town, there were several owners of Point O' Pines. A few weeks ago, Larry Wolter contacted me stating "he'd better get busy and find the history and pictures he had on the resort" and I was definitely not going to let him "renig" on the deal.

The Wolter Family owned the supper club 1969 to 1976, and continued to run the resort through 1981. Unfortunately, the supper club burned down in 1980. **Here is Larry's story -**

We used to stay at the Lyndale Bay Resort on the Upper Eau Claire lake (I almost drowned there and I remember it well) and my dad would bring us up to Barnes in a bus camper. I think that's when he decided to get the resort. My parents, Elmer and Norma Wolter, purchased Point O' Pines Resort and Supper Club on the Middle Eau Claire lake on July 1st, 1969. (The month we landed on the moon. I remember watching it on a black and white TV set.) That had to be the hardest time to take over a resort and bar, but my folks had 6 children to help. I was going into the fifth grade at the Cable school. Oh yes, the trees seemed so big and air so fresh compared to southern Wisconsin where I was born. (I remember someone canning and selling the northern pine fresh air.)

The new challenge was a lot of hard work that seemed to be 24 hours a day sometimes. My mom's cleaning crew would clean the 5 cabins and 2 motels every Saturday (change over, we called it Hell's day.) We would have to rake the beach, wash the boats, mow the lawns, pick up garbage, strip the bed sheets, fix everything that was broken, clean the fish house (I could check what was biting), then my mom would head to the hot kitchen to cook some of the best food around town (cheese fondue and poor man's lobster were some of the favorites.) My brothers and sister and I would all have our part. My brother Dan and I seemed to always wash all the dishes by hand (thank God when we put a dishwasher in later on - we called it the Peace

Maker). We all cleaned off tables and bartended when my dad didn't. (some people might remember my Dad - he was well known back in the day). My dad managed, repaired, remodeled, and eventually built other houses and garages on the resort.

That resort was a great way of meeting people. We would have Live Music sometimes 5 days a week. (anybody remember the Sounds of Yesterday from Oulu?) There was an accordion player (Jim Depinto) and violin players when we first got there who made the best chicken cacciatore. There would be over a hundred deer hunters staying here. I remember making bag lunches for the hunt. There was a buck pole light up from the bar window that they enjoyed. My dad even put up a Santa you could sit by for a picture with a sign saying "All Season Greetings" and a big pine with lights.

The place was always hopping with lots of people from all over and they loved our midnight breakfast. Guest came from all over the country to vacation every year at the Point O Pines (always had to explain the letter "O" thing and where the heck Barnes was.) We would give guided tours of the lake on the pontoon to our guests and tell them where to fish. Located down by the river was a cabin Still that made moonshine during prohibition. The roof was caved in but you could see the distiller which was fed by the Eau Claire River. I heard it was struct by lightening once. When I grew up I was told it was one of Al Capone's stills from his Hayward location. Then I was told it wasn't, but the former grounds keeper Gibby found jugs buried in the resort and told me he drank it and said it was good. I remember seeing pictures of JFK (Babe and Eleanor Derosier gave the tour) and Festus from Gunsmoke promoting the Spooner Rodeo when they were at the bar.

Honestly, there were too many people to mention that worked at Point O' Pines, including locals and college students. They did all sorts of work, anywhere from bartending, waitressing, cleaning crew, cooks, grounds keepers and carpenters. When we built the big house, that's when I decided to be an electrician.

REMINISCING - Continued

Then the oil embargo hit and snowmobiling declined. My dad was a visionary about what real estate was going to do and subdivided the Resort of 25 and 3,000 feet of shore line into 20 lots called "Point O' Pines Planned Community. We sold the supper club to Bob Berg in 1976 and the bar changed hands twice after that, then burned down in January of 1980. Looking back where I grew up now, I realize it was a great way to grow up! I certainly am not afraid to work ! I am happy to still live at a piece of it.

Resorts had a hard time surviving back in the day, partly because the summer season was too short. But the timing was right for the popularity of snowmobiling! My dad got us geared up for entertaining snowmobile clubs (some had up to 60 people) from all over Wisconsin and Illinois to do our guided tours. We had quite a few guide sleds (they were all Arctic Cats since the Friermood's specialized in sales and services. I learned a lot about wrenching from "Bill the Man.")

We had an American style of accommodations, food at the club and at Brule or Iron River supper clubs on the trails (back then the trails were not marked and in some cases, we made our own.) I definitely liked winter more than summer!

KEEP OUR ROADS CLEAN — HELP PICK UP

We love living in our great little town, and it sure looks better when our roads are clean. Please, do the right thing and do NOT throw your trash out the window. If you notice you lost some of your collection on the way to the dump, please go back and clean it up. Some of our local clubs arrange clean up days and would welcome any one that can help. Anything we can do to keep this looking like the place that kept us here or brought us back, we need to do it. If you're just passing through our little town, make sure your trash goes through as well. Thank you !!!

AQUATIC SPECIES TRAINING

Thirty gather for training as Deckhands and Divers on the New BAISS boat to control an Aquatic Invasive Plant on Middle Eau Claire Lake.

On a sunny, quiet Tuesday morning, June 6th, thirty volunteers gathered for training as deck hand and divers to being removal of large patches of the invasive aquatic plant, Curley Leaf Pondweed, for Lower Eau Claire Lake near the Public Boat Landing.

It was an exciting moment not only because of the enormous and important work to begin but mainly because it is the inauguration of the newly outfitted Barnes Aquatic Invasive Species Suction pontoon watercraft (BAISS) that will be volunteer operated. The BAISS pontoon boat has recently been constructed on a pontoon donated by the Ingemar Ekstrom family by volunteers Mattila and Gerald "Gus" Gustafson.

After shoreland orientation and training by Lee Wiessner and Andy Teal, including identification of native and invasive aquatic plants, the volunteers learned how to operate the on-board equipment for processing the plants and to support the divers. Divers direct the plants to the suction tube opening as they are manually pulled. Others on the BAISS boat or a separate boat collect plants from the surface that escaped the suction apparatus.

On-board the plants are delivered from the diver in a fast flowing lake water through a 6 inch diameter tube onto a screened table over a large tank for collecting water after the plants have been removed. A volunteer deckhand quickly picks up plants as they are delivered to the screen and place them in an attached container lined with a bag.

Another volunteer deckhand keeps the air pump running, keeps the divers air hoses from getting entangled, monitors the suction hose and aids divers as needed. These underwater divers do not use SCUBA air tanks but instead have their mouth piece aerator attached directly to the on-board air pump by long strong hoses.

UFO CRAFTERS

The first of the two June meetings for UFO Crafters was held on Monday, June 19 at the Barnes Town Hall. Again, other commitments kept some who regularly attend away for the day, but three new people came by to share some crafting time with us. It was a very pleasant afternoon working on various crafts and getting to know new people who share a love of crafts and a desire to work on unfinished projects. Crafts represented that day were hand-quilting, knitting a washcloth, piecing a quilt top, removing sequins from a dress, felting, and just time looking through craft books organizing ideas. Spending time with other craft people is a great way to finally get those UFO's worked on. Everyone and every craft is welcome. It's okay if you can't make every meeting. This is an open-ended work day. No meeting. No organization. Just crafts. Our July meetings are the 3rd and 4th Mondays, July 17 and 24, 1:30 P.M. at the Barnes Town Hall on Hwy N. Come and join us. You're always welcome. Submitted by: Judy Wilcox

THE KEY TO PREVENTING MOLDY BERRIES (provided by roseanniamms)

Berries are delicious, but they're also kind of delicate. Raspberries in particular seem like they can mold before you even get them home from the market. There's nothing more tragic than paying \$ 4.00 for a pint of local raspberries, only to look in the fridge the next day and find that fuzzy mold growing in their insides. Here's a tip on how to prevent them from getting there in the first place:

When you get your berries home, prepare a mixture of one part vinegar (white or apple cider) and ten parts water. Dump the berries into the mixture and swirl around. Drain, rinse if you'd like (even though the mixture is so diluted you won't taste the vinegar) and pop in the fridge. The vinegar kills any mold spores and other bacteria that might be on the surface of the fruit, and voila!

Raspberries will last a week or more, strawberries go almost two weeks without getting moldy and soft.

ASK A MASTER GARDENER....July Native Plant of the Month
Bluestem Goldenrod (*Solidago caesia*)

Forever, it seems, goldenrods have been falsely accused of causing hay fever, an allergy caused by wind-borne pollen. However, the pollen from goldenrods is much too heavy to be carried on the breeze; like many other native wildflowers, its pollen must be moved from bloom to bloom by butterflies, bees, and other pollinators. So, the allergy-sufferers out there have an additional option for a spot of color in their autumn woodland garden. Yes, Bluestem Goldenrod thrives on the woodland edge in partial shade.

Solidago caesia is an herbaceous perennial wildflower that is about 1 1/2 - 3' tall, either without, or sparingly branched. It has a single, smooth, slender central stem that usually arches to one side or the other. When young, the stem is light green but as the plant matures it becomes blue-gray or burgundy-gray. Along the central stem, and the side stems, if any, there are alternate leaves up to 5" long and wide, becoming gradually smaller as they near the top. The leaves are medium to dark green, lance-to-oval shaped, with smooth to serrated edges, with no apparent leaf stalk. Tucked into the spot where the leaf meets the stem, small clusters of tiny, bright yellow, daisy like flowers develop, and the top of the central stem may have a small bundle of flowerheads up to 3' long and 1 1/2" across. Each flowerhead is about 1/8" across or a little wider, consisting of 4 or 5 petals (ray florets) surrounding a similar number of smaller, disk florets in the center. The plant blooms from late summer into the fall, lasting for about a month. When mature, the seeds are fluffy and easily carried by the wind.

Bluestem Goldenrod prefers medium shade to part sun or dappled light, average to dry-average moisture, and a soil that contains loam, clay-loam or some rocky material. The species is primarily clump-forming, and does not spread aggressively.

The nectar and pollen of the flowers can attract a wide variety of insects including the butterflies and short-tongued bees. The seeds are eaten sparingly by the Indigo Bunting, Tree Sparrow, Eastern Goldfinch and other songbirds. And—here's a plus—it's deer resistant!

Bluestem Goldenrod can be propagated by seed or division, and has no serious insect or disease problems.

This plant is found in the wild in only two counties of southwestern Wisconsin, and is listed as a Wisconsin Endangered plant.

In short, Bluestem Goldenrod is well behaved, rather than aggressively spreading, as some of its relatives will; it is a clump-forming variety. Individual plants are relatively small, but a mature clump has great presence and texture—brightening and semi-shaded garden late in the season. *Solidago caesia* is an elegant, interesting goldenrod for a variety of garden styles. As it plays well with others, this plant can easily be incorporated into a native plant garden, open woodland garden, borders, cottage garden, meadow or butterfly garden, or tucked into a perennial garden. Give it a chance in your garden....maybe we could bring it back in our state.

GORDON-BARNES GARDEN CLUB:

June 20th was a perfect day for a garden club meeting. Twenty-three women met at the Barnes Town Hall for wonderful treats, business and plans for summer garden tours, and a presentation by one of our members, Sue Pence, on establishing a butterfly friendly garden.

The treats were provided by our hostesses, Ann Brovold, Roxanne Lindgren, and Laurie Balousek. The club meetings this year have emphasized herbs, and since the June herb is mint, the hostesses incorporated mint into the sweet treats and drinks. It was fun to enjoy their creativity.

Sue shared some literature she had gotten from the Wisconsin Master Gardener website on creating a butterfly garden. She also gave us some other helpful websites.

July 18th, we are going to Mary Krook's home. Mary has many plants in her gardens, but her specialty is dahlias. Following the tour of Mary's gardens, we are going to have a potluck salad luncheon. We are fortunate to have many members whose gardens are wonderful to tour.

If you happen to be at town hall, notice the gardens around the hall itself and the office building as well. The garden club has planted and is maintaining those gardens for everyone to enjoy. Don't you just love summer in Barnes?

**Another fun note from Larry
Wolter and the Point O' Pines**

Another neat story was about the bear house that was beside the lodge. We used it to store the beer :) but the story has it that the Capelle's had used it to keep a pet bear. However, it got too big to handle and it wouldn't leave so they disposed it behind my house. The story was told by Mrs. Capelle, who came to visit the old resort more recently, to my neighbor Linda Clark.

Please be sure to keep a weathered eye out for the fawns and does. They're moving and not easy to see.

Also, please take extra care when seeing turtles on the side of the road, they have recently laid their eggs.

Sad to see them "smashed" on the road when most of the time, hitting them can be avoided.

***I PLEDGE ALLEGIANCE TO THE FLAG OF THE UNITED STATES OF AMERICA,
AND TO THE REPUBLIC FOR WHICH IT STANDS, ONE NATION, UNDER GOD,
INDIVISIBLE, WITH LIBERTY AND JUSTICE FOR ALL.***

The Pledge of Allegiance was written in August 1892 by Francis Bellamy (1855–1931), who was a Baptist minister, and a Christian socialist. The schoolroom staple didn't originally include "under God," even though it was created by an ordained minister. The official name of The Pledge of Allegiance was adopted in 1945. The last change in language came on Flag Day 1954 when the words "under God" were added.

TIME CHANGE for Medicare 101 Presentations!

Submitted by: Karin Bodin, Bayfield County

In January 2017, the Bayfield County Elder Benefits Specialist, Sheila Mack, began providing "Medicare 101" presentations once per month, January through September, throughout Bayfield County. The presentations had started at 3:00 p.m. and lasted up to 2 hours, but due to audience feedback, the remaining presentations, beginning with April's presentation, will start at **6:00 p.m.** and last up to 2 hours, depending upon the information reviewed and questions asked by those attending the presentation. Hopefully this will be more convenient for attendees. Also, refreshments will be served.

These presentations will introduce you to the basics of Medicare and give you the information you need to know before making any decisions about whether you want to enroll in all parts of Medicare at age 65, some parts of Medicare, or none of them; and the possible consequences of not enrolling when you are first eligible to enroll. You will also learn about the three types of insurance that supplement Medicare because Medicare only pays 80% of hospital and medical costs, and the need for creditable prescription drug coverage either through Medicare Part D, Wisconsin Senior Care, or a Medicare Advantage Plan.

If you will be turning 65 this year, attending one of these trainings is strongly encouraged. The time available for the Elder Benefit Specialist to work with you in the office is becoming more and more limited due to the increase in assistance being requested. In order to provide prompt and efficient service to as many clients as possible, this presentation will provide basic information on Medicare in a group setting rather than one on one in the Elder Benefit Specialist office. This training will give you enough information to understand your options and be ready to make decisions when it is time to do so.

Below is a list of the dates and towns/cities that the remaining Medicare 101 presentations will be offered. If you plan to attend, please register by the day before the presentation is to be held, by calling:

Karen Bodin at 715-373-6144. ext. 115. Registration is necessary to prepare enough materials for everyone who attends.

Medicare 101 Presentation will be held at **6:00 p.m.** on:

July 11, at the Washburn Public Library in Washburn, WI

August 8, at the Iron River Community Center in Iron River, WI

September 12, at the Drummond Public Library in Drummond, WI

NAMEKAGON TRANSIT BAYFIELD COUNTY ROUTE

Bayfield County and Namakagon Transit are providing a route to serve the southern part of Bayfield County. The route originates in the Barnes area then picks up riders in Drummond and Cable, continuing into the Hayward area. Passengers will then have the ability to transfer to a "circular route" in Hayward, where they can travel from store to store or from one address to another, including the courthouse and various medical facilities.

The cost for the service is \$1.00 one way and \$0.50 for seniors and persons with disabilities who have a Transit ID card.

You **must** call by 1:00 p.m. the previous day to schedule a ride.

COLD WATER DILL PICKLES

From: Fred Jonas

Pickle size cucumbers

BRINE:

8 cups cold water
3/4 cup pickling salt
2 cups 4% to 6% vinegar

TO EACH QUART:

Fresh dill (4 large sprays)
1/4 tsp powdered alum or 2 lumps solid alum
1/4 tsp cream of tartar

Rinse pickles off (**important: never soak in water**). Put 2 dill sprays in clean jar. Add pickles, alum, cream of tartar and 2 dill sprays on top. Now add the brine to cover.

Put lid on tight, keep at room temperature for six days. Pickles must work in jars, they won't spoil.

Store in cool, dark place. Ready to use in 8 weeks.

We'd love to share your favorite recipes, cooking or baking stories, or any tips you may have.

Few drops green food coloring
2 cups thawed frozen whipped topping

CHRISTMAS IN JULY—Spiced Pecans

From: Christmas from the Heart Series Books

Ingredients:

4 cups pecans
1/4 cup margarine
1 1/2 cup sugar
1 Tbls cinnamon
1 Tbls ground cloves
1 Tbls nutmeg

Directions:

Melt margarine and add pecans. Cook and stir 30 minutes. Drain on paper towels. Mix remaining ingredients in plastic container. Add warm pecans and shake to coat. Spread on a baking sheet to cool completely. Store in an airtight container.

Keep extras of these sweet and spicy snacks on hand.

Directions: Combine crumbs, sugar and margarine; press onto bottom of 9 inch springform pan. Bake at 325 degrees for 10 minutes. Cool.

Soften gelatin in water; stir over low heat until dissolved. Add juice, egg yolks, 1/4 cup sugar and peel; cook, stirring constantly, over medium heat 5 minutes. Cool.

Gradually add gelatin mixture to Neufchatel cheese, mixing at medium speed on electric mixer until well blended. Stir in food coloring. Beat egg whites until foamy; gradually add remaining sugar, beating until stiff peaks form.

Fold egg whites and whipped topping into Neufchatel cheese mixture; pour over crust. Chill until firm. Garnish with additional lime peel, if desired.

Makes 10 to 12 servings.

Ingredients

- 1 can Pillsbury™ refrigerated crusty French loaf
- 2 tablespoons Crisco® 100% Extra Virgin Olive Oil
- 1 large red onion, thinly sliced
- 2 cups chicken broth
- 1 lb thinly sliced or shaved deli turkey
- 6 oz Brie cheese, sliced
- 1 cup lightly packed fresh arugula

Directions:

Heat oven to 350°F. Spray large cookie sheet with Crisco® Original No-Stick Cooking Spray. Place dough seam side down on cookie sheet. Using sharp or serrated knife, cut 4 or 5 diagonal 1/2-inch-deep slashes on top of loaf; sprinkle with 1/4 teaspoon black pepper. Bake 22 to 26 minutes or until golden brown. Set aside.

Meanwhile, in 12-inch skillet, heat oil over medium heat; add onion and cook 2 minutes. Stir in chicken broth, turkey, 1/2 teaspoon salt and 1/2 teaspoon pepper. Bring to a boil; cook 2 to 3 minutes or until onions are crisp-tender. Cut bread crosswise into four rolls. Cut each roll in half horizontally. Using slotted spoon, fill each roll with turkey and onions; reserve broth. Top turkey with cheese, arugula and tops of rolls. Serve sandwiches with reserved broth for dipping.

The SPICE CORNER: What is the Significance of Parsley, Sage, Rosemary and Thyme?

Parsley, Sage, Rosemary and Thyme. We've all heard the song, but do we know the meaning behind the words? Herbs were much more than seasonings for food in medieval times and it is an interesting journey back to the time when knights and fair ladies lived, to find the answers.

**"Are you going to Scarborough Fair? Parsley, Sage, Rosemary and Thyme.
Remember me to one who lives there, she once was a true love of mine."**

Scarborough Fair was an actual agricultural and craftsman fair, which originated in Medieval England in the mid 1200's. Merchants from all over Europe, Scandinavia and the Byzantine Empire traded and sold their goods at the 45-day event. Just as in modern times, there were food vendors, entertainment and curious pleasure-seekers. Fairs and harvest celebrations are a part of every culture and are as much a part of modern life as they were at the dawn of recorded history. Our singer is asking a friend who is attending the fair to seek out a girl who he was once romantically involved with and let her know he still has feelings for her.

These plants weren't chosen by the songwriter just because they rhyme well and have a pleasing cadence in the song, they have specific meanings that tell a deeper story than what is on the surface. This was a time when flowers and herbs were significant in the lives of medieval folk and they believed that they contained mystical properties that could influence emotions and feelings.

Many people view **Parsley** (*Petroselinum crispum*) as that sprig of green at the side of their plate when served a meal in a restaurant. Historically, parsley was thought to aid digestion and this custom of eating a few leaves with one's meal was thought to promote well-being. The song however, alludes to a different meaning. Parsley was thought to remove bitterness and although medieval herbalists recommended it for a sour stomach, it was also thought to remove bad or bitter blood. The Singer wants to cleanse the bitter air between himself and his lost love.

Sage (*Salvia officinalis*) was a symbol of strength and wisdom according to Celtic tradition and was even associated with immortality. Today, most of us only think of sage when we start to stuff the Thanksgiving turkey, but it was used medicinally long before it became a modern seasoning. Sage has drying properties and was used to treat chest congestion and its antiseptic compounds were used to bind wounds and treat snakebites. In the context of the song, it seems that the singer wants to offer strength and wisdom to his lady.

Rosemary (*Rosmarinus officinalis*) is also a modern culinary herb with ancient meanings beyond its seasoning properties. It is associated with love and fidelity, often used in Medieval times as part of a wedding bouquet or strewn on church floors during the nuptials. The strong scent lingers, so it was given as a token of remembrance between lovers. It is the singer's wish that his lady remember him with love and affection, possibly pleading with her that he will remain faithful this time around.

Thyme (*Thymus vulgaris*) has a number of healing or medicinal properties and has been used for thousands of years to bind wounds and as an antiseptic. It was also a sign of love and courage and often a knight's lady would embroider thyme leaves on his cloak or tunic. The Greeks believed that thyme could reverse sad or melancholy feelings and it was sometimes used to boost confidence in stressful situations. Our singer wants his lady to have courage and be happy because he will eventually return to her. The bard is trying hard to convince his lost lady love that if she will gather the strength and courage to see him again, to remember their happier times, he will eventually return to her. And although it was recorded as a modern pop song, the tune and lyrics, in several incarnations have been around since the Middle Ages. It is an interesting journey into the past, and now you know the 'rest of the story'.

CHRISTMAS IN JULY - EGGNOG PUNCH

Taste of Home

Ingredients:

1 3/4 to 2 quarts French vanilla or cinnamon ice cream
2 quarts dairy eggnog or canned eggnog, chilled
1 1 liter bottle cream soda, chilled
Peppermint sticks or candy canes
Ground Cinnamon

Directions:

Place ice cream in an extra large punch bowl; add half the eggnog. Use a potato masher to gently stir and mash ice cream mixture until ice cream melts and mixture is combined. Stir in the remaining eggnog. Slowly pour in cream soda, stirring to combine. Sprinkle each serving with cinnamon; serve with peppermint sticks.

HONEY VANILLA FRUIT SALAD

From "the Wholesome Dish" website

Ingredients:

- 1 pineapple, peeled, cored and chopped
- 16 oz. strawberries, stemmed and quartered
- 12 oz. blueberries, washed
- 4 kiwi, peeled and sliced
- 1 (23.5 oz) container mandarin oranges in juice
- 1/4 cup honey
- 2 tsp vanilla extract

Directions:

1. In a large bowl, add the pineapple, strawberries, blueberries and kiwi
2. Drain the juice from the mandarin oranges (keep the juice) Add the orange segments to the bowl with the rest of the fruit.
3. In a medium bowl, add 3 tbs of the reserved mandarin juice. Add the honey and vanilla. Whisk to combine.
4. Pour the honey vanilla sauce over the fruit. Gently stir until the fruit is well coated.

Note: *I've tried this and was certain it would be way too sweet, however, the tartness of the fruit cuts the sweet and it is awesome !!*

4TH OF JULY JELLO

From: shared.com

Ingredients:

- 1 (6 ounce) box red Jello
- 1 (6 ounce) box blue Jello
- 1 (14 ounce) can sweetened condensed milk
- 2 (1 ounce) envelopes Knox unflavored gelatin

Water

Directions:

1. For each flavor, dissolve one box of Jello in 2 cups of boiling water. Pour into two separate 9 x 13" pans and chill for at least 3 hours.
2. After chilling the flavors, cut them into small squares. Mix both colors of Jello squares in one 9 x 13" pan. In a separate bowl, sprinkle 2 envelopes of unflavored gelatin into 1/2 cup cold water. Let the gelatin expand in the water for a few minutes, then add 1 1/2 cups boiling water and whisk together until the unflavored gelatin dissolves.
3. Mix in the can of sweetened condensed milk, stir and let cool at room temperature. Once the milk mixture has cooled, pour over Jello squares in the 9 x 13" pan. Chill for a few hours until set up. Cut into blocks or shapes and serve.

PICKLED FISH

From the Kitchen of Sandi Swanson

"Given to me by my mother-in-law. We use what we call suicide Northerns. (the fish that take the hook way down and would die anyway)"

Step 1:

Filet fish, cut fish in chunks, (about 1 inch pieces). Measure out 2 quarts. Put in brine of 4 cups water to one cup pickling salt. Let stand 48 hours in refrigerator. Rinse with cold water, drain.

Step 2:

Cover fish with white vinegar. (takes about 1/2 gallon) Let stand 24 hours in refrigerator. Drain. Cut onions into slices.

Step 3:

Make brine of 21 tbsp sugar, 2 1/4 cups white vinegar. Bring to boil and boil for 5 mins. Add red wine (about 4 1/2 oz.) Divide 6 teaspoons of pickling spices into canning jars. Put onion slices and fish in layers in jars. Cover with hot brine. Seal canning jars.

Makes about 3 quarts.

Store in refrigerator.

Keeps for several months. (Wait to eat the pickled fish for about 6 weeks.)

"I usually fix the fish at the end of September then it is ready for Thanksgiving and Christmas."
