

Town of Barnes

Organization Use of Town Web Site

The Town of Barnes encourages organizations to utilize the town web site, www.barnes-wi.com. We want the web site to be a local portal for information about Barnes. We are looking for primarily nonprofit, community oriented organizations with a local presence.

If your organization would like to post information about what you are doing, meeting minutes, pictures, etc. or would like to have events or meeting notices placed in the Community Event Calendar please fill out the form below and submit it to the town clerk.

Before filling out the form and submitting it this request should be discussed by the organization. The person submitting the form should be either an officer of the organization or the person designated to contact the town concerning information that will be posted on this web site for the organization.

If there are questions the town clerk will try to contact you via the email address provided. Depending on the request there may be a delay before you hear a response from the town clerk.

The Town of Barnes reserves the right to accept or reject any request.
