

Barnes EWM Project Misc. Photos

This appendic is a collection of photographs illustrating some of the work completed and aerial (oblique) photos taken by Dave Thorson in October of 2005.

Informational Signs at Boat Landing.....	2
Small signs	
Large Signs	
Upper Eau Claire Lake boat landing	
Eau Claire Lake Chain	3
Entire Chain (from southwest)	
Tributary Lakes (Robinson, Birch, Bony)	
Middle Eau Claire (from west)	
Upper Eau Claire & Douglas Co. Lakes.....	4
Upper and Devils (from south)	
Headwater lakes (Sweet, Schunenberg, and Smith)	
Murray, Loon and Sand Lakes	
Beauregard Lake	
Barnes Seepage Lakes	6
Tomahawk, Sandbar, and Priest	
Potowatomie Lakes	
Ellison, Priest, Sandbar, and Tomahawk Lakes	

EWM Informational Signs

Twenty signs 4(large, 16 small) were designed, constructed and installed at public boat landings in the project area. Each sign was placed in a conspicuous location where boaters could not possibly miss the sign or its message.

Large Signs (4' X 8') below

Small (4'X4') left

Upper Eau Claire
Middle Eau Claire
Lower Eau Claire
Tomahawk Lake

Robinson
Island
Pickerel
George
Beauregard
Ellison
Ole
Breakfast
Rock

Large informational sign on
Lower Eau Claire Lake

Landing on Upper Eau Claire on
Outlet Bay.

Eau Claire Lake Chain of Lakes looking northeast.

Tributary lakes Robinson, Birch (tributary to Upper) and Bony (tributary to Middle) Pickerel at left is a seepage lake with no outlet

Middle Eau Claire Lake with Upper at left. The Eau Claire River flows to right toward Lower Eau Claire. Note: The Eau Claire River was also surveyed for EWM with a combination Type 1 and Type 2 level of survey.

*Upper Eau Claire Lake and Devils Lake at lower left. (looking north)
Oct 05 photo D. Thorson)*

Sweet Lake (r), Schunenberg Lake (m), and Smith Lake (l) at the headwaters of the Eau Claire Lake chain. These three connected lakes flow left into Upper Eau Claire Lake.

Murray Lake (lower left), Loon Lake (upper) and Sand Lake (with island) were inventoried using the Type 1 level survey protocol. Photo looks easterly.

Beauregard Lake (from south)
Nearby Rock Lake was not photographed.

Sandbar and Tomahawk, both contain EWM. Priest Lake is a private access lake and was not surveyed.

Seepage lakes, often referred to as the Potawatomie Lakes, from right. (Sandbar, Turtle, George, Breakfast, Island, and Ole.)

Ellison Lake (foreground) does not have a public boat landing, but there is private access used. The lake was surveyed by a Level 1 survey protocol and also a sign was installed.
