Motion Stein/Emerson: The Committee recommends the discontinuance of Fahrner Road within the Krob properties subject to the satisfaction of the following:

1. Determination that sufficient right of way exists to permit creation of a turnaround near the former tavern, and that additional easement to allow for same will be provided if required.
2. Determination that no liability issues will be incurred by the Town as a result of such discontinuance. The area of concern being a plus/minus 100 foot area of a former private access easement to the Beckler property. This former private access easement was overlaid by the creation of Fahrner Road and is now being proposed to be discontinued.
